PROFESSIONAL SUMMARY

Entry-level C++ Developer passionate about game programming and building interactive systems from scratch. Experienced in designing gameplay mechanics, managing multi-file projects, and writing clean, modular code. Looking to expand my skills in game development, simulation, and software engineering.

TECHNICAL SKILLS

Programming Languages: C++, HTML, CSS, Python, JAVA

Software & Tools: Visual Studio, Unity, Unreal Engine, Git, GitHub, Microsoft Office

Technical Concepts: Object-Oriented Programming, Classes & Objects, Multi-file Architecture, Pointers & Dynamic Memory, Functions, Vectors, Input Validation, Debugging, Version Control, Branching & Pull Requests

TECHNICAL EXPERIENCE

Current Course Project – Infinite Dungeon (C++)

- Built a full text-based RPG using object-oriented programming and multi-file architecture.
- Implemented classes for players, enemies, items, rooms, and battle systems.
- Designed turn-based combat, class abilities, inventory management, and dungeon exploration.
- Used Git and GitHub for version control, branching, commits, and pull requests.
- Debugged constructor mismatches, type conversion issues, and linker errors during development.
- Created project documentation and a full video demonstration.

PROJECTS

Infinite Dungeon — Text-Based RPG

Developed a fully interactive C++ console RPG featuring dungeon exploration, turn-based combat, class abilities, items, elite/rare enemies, and boss encounters. Designed a modular multi-file architecture using object-oriented programming principles to manage gameplay systems and dynamic enemy behavior.

Technologies: C++, Visual Studio, Git, GitHub

Repository: <https://github.com/JHowell42/InfiniteDungeon>

EDUCATION

Full Sail University

Bachelor of Science in Computer Science

Expected Graduation: 04/28

Relevant Coursework:

- Programming Fundamentals
- Object-Oriented Programming
- Software Development
- Version Control

EXPERIENCE (OPTIONAL)

Replace this section with your work, volunteer, internship, military, or leadership experience if applicable.

CERTIFICATIONS (OPTIONAL)

- GitHub Foundations
- Microsoft Learn
- freeCodeCamp
